Accessory olfactory bulb (AOB)

NADPH-diaphorase activity, histochemical localization, rat 413

Allosmics

adaptation, individual differences 197

Amino acids

olfactory responses, salt concentrations, chum salmon 609

Astringency

taste, sensory interactions, intensity levels 141

Capsaicin

taste, memory, intensity ratings, humans 651

Cell culture

olfactory neurons, ensheathing cells, adhesion molecules 25

Cell proliferation

olfactory bulb interneurons, leading process, neuronal guidance, retroviral lineage tracer, subependymal zone 695

Chorda tympani fibers

gustatory responsiveness, neural coding, gustatory information, cynomolgus monkey 381

Chorda tympani nerve

salt taste, receptor mechanisms, sodium depletion, water deprivation, sodium appetite, thirst rat taste, glossopharyngeal nerve, taste threshold, L-lysine, taste information 617

Chorda-lingual nerve

taste, denervation, regeneration, fungiform taste, human taste 657

Feeding behavior

taste, mudpuppy 303

Fragrances

functional imaging effect, prolonged inhalation, brain, human 359

Functional imaging effect

fragrances, prolonged inhalation, brain, human 359

Glossopharyngeal nerve

taste, chorda tympani nerve, taste threshold, L-lysine, taste information 617
taste, taste response, nickel-induced choline response, competitive inhibition, calcium, frog 641
taste, taste response to choline ions, transition metal ions, choline receptor, frog 627
taste response, Ni^{2+} -induced enhancement,

initial event of taste transduction, frog 265
taste response to Ca^{2+} ions, Ni^{2+} -induced inhibition and enhancement, calcium receptor, frog 401

Gustatory

gustatory responsiveness, chorda tympani fibers, neural coding, gustatory information, cynomolgus monkey 381
taste, taste preference, taste sensitivity, saliva, drug 125

Hypogonadotropic hypogonadism

olfactory function, anosmia 57

Inhibition

trifluoromethyl ketones, pheromone reception, processionary moth 1

Keratin

cytoskeleton, epithelium, gustatory, perigemmal, salivary ducts 251

Lineage analysis

taste buds, epibranchial placodes, neural crest, endoderm, salamander, gustatory system 715

Lipid membrane

taste sensor, electrical potential, astringency, pungency, principal component analysis 87

N-ethylmaleimide (NEM)

olfaction, effects of NEM, pheromone compounds, pheromone analogue, moth (*Mamestra brassicae*) 185

NaCl

quinine HCl, mixtures, contextual effects 113
taste, loss of sensitivity, low concentrations, rat 169

NADPH-diaphorase activity

accessory olfactory bulb (AOB), histochemical localization, rat 413

Odor

detection, advanced age 365
facial EMG, facial expression, hedonic odor evaluation 99
odor signals, olfactory receptor neurons, adaptation 71
olfaction, sensory coding, feeding behavior, conditioning, crustacea 331

Olfaction

N-ethylmaleimide (NEM), effects of NEM, pheromone compounds, pheromone analogue, moth (*Mamestra brassicae*) 185

Subject index

- odor, sensory coding, feeding behavior, conditioning, crustacea 331
- olfactory function, hypogonadotropic hypogonadism, anosmia 57
- olfactory neurons, cell culture, ensheathing cells, adhesion molecules 25
- olfactory receptor neurons, odor signals, adaptation 71
- olfactory responses, amino acids, salt concentrations, chum salmon 609
- olfactory signal transduction, olfactory discrimination, bile acids, phospholipase C, adenylyl cyclase, Atlantic salmon 371
- receptor cell, patch clamp, transduction, lobster 11
- taste, taste preference, sucrose, licking 425
- Olfactory bulb interneurons**
 - cell proliferation, leading process, neuronal guidance, retroviral lineage tracer, subependymal zone 695
- Olfactory epithelium**
 - basal cells, stem cells, methyl bromide lesion, lineage relationships 671
 - lineage analysis, replication-incompetent retrovirus 683
- Olfactory evoked potentials**
 - psychophysical threshold, young adults, elderly subjects 47
- Quinine HCl**
 - NaCl, mixtures, contextual effects 113
- Reproduction**
 - vomeronasal organ, performance, aggression, male prairie voles 35
- Salt taste**
 - chorda tympani nerve, receptor mechanisms, sodium depletion, water deprivation, sodium appetite, thirst rat
- Sugar**
 - calming effects, pain-relieving effects, infant rats 239
- Sweetness**
 - taste, inhibitors, bitter-sweet stimuli 349
- Taste**
 - astringency, sensory interactions, intensity levels 141
 - capsaicin, memory, intensity ratings, humans 651
 - chorda-lingual nerve, denervation, regeneration, fungiform taste, human taste 657
 - feeding behavior, mud puppy 303
 - glossopharyngeal nerve, chorda tympani nerve, taste threshold, L-lysine, taste information 617
 - glossopharyngeal nerve, taste response, nickel-induced choline response, competitive inhibition, calcium, frog 641
 - glossopharyngeal nerve, taste response to choline ions, transition metal ions, choline receptor, frog 627
 - gustatory, taste preference, taste sensitivity, saliva, drug 125
 - insect taste, intensity discrimination, multiple receptor model, blowfly 317
 - NaCl, loss of sensitivity, low concentrations, rat 169
 - olfaction, taste preference, sucrose, licking 425
 - preference test, SOA, demitaster, mouse 595
 - sodium chloride, conditioned aversion, rats 209
 - sweetness, inhibitors, bitter-sweet stimuli 349
 - taste buds, chimeras, progenitor, mice, taste buds, lineage analysis, epibranchial placodes, neural crest, endoderm, salamander, gustatory system 715
 - Zenopus* 725
 - taste organs, tongue, ventral side, frog (*Rana catesbeiana*) 231
 - taste response, glossopharyngeal nerve, Ni^{2+} -induced enhancement, initial event of taste transduction, frog 265
 - taste response to Ca^{2+} ions, glossopharyngeal nerve, Ni^{2+} -induced inhibition and enhancement, calcium receptor, frog 401
 - taste sensor, lipid membrane, electrical potential, astringency, pungency, principal component analysis 87
- Time-intensity scaling**
 - halo effect, dumping effect 583
- Triadic discrimination testing**
 - Thurstonian modeling, sensitivity analysis 279
- Trifluoromethyl ketones**
 - inhibition, pheromone reception, processionary moth 1
- Viscosity**
 - fats, conditioned flavor aversion, preference 55
- Vomeronasal organ**
 - reproduction, performance, aggression, male prairie voles 35
